

USA Swimming Membership Creation

Updated: Sept 2, 2025

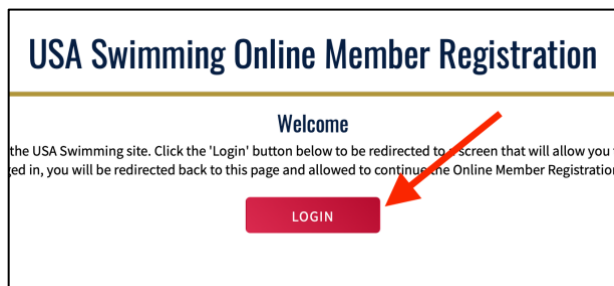

All Riptide swimmers must have an active USA Swimming membership. Parents are responsible for creating initial memberships. After the initial membership, Riptide will submit the annual renewal.

Step 1 – Create your USA Swimming login

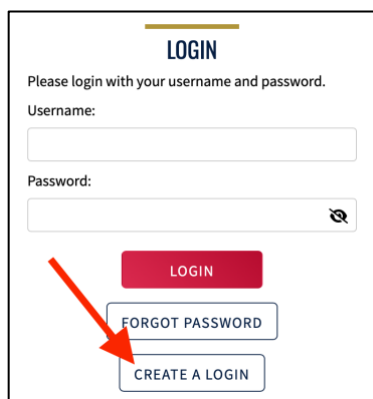

This login is for the parent. Make note of the email that you use.

Go to the following url: <https://omr.usaswimming.org/omr/welcome/DCC64152910975>

This url will take you to a page with the Login button (as pictured below). Click the button.

The next page will allow you to enter your login information or create a login. Click the Create a Login button.

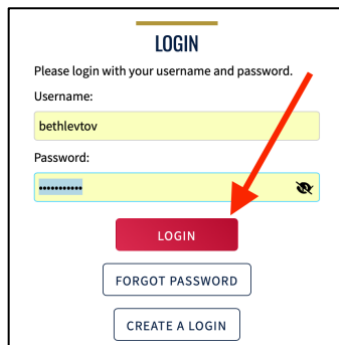

You'll receive an email with a code that will allow you to complete the creation of the login. You'll be prompted to select a password (make note of the password, since you'll need it again in this process and again next year when you renew your swimmer's registration). You'll also need to provide your contact information and acknowledge some waivers. Step 1 is complete when your login is active.

Step 2 – Add a USA Swimming membership for your swimmer

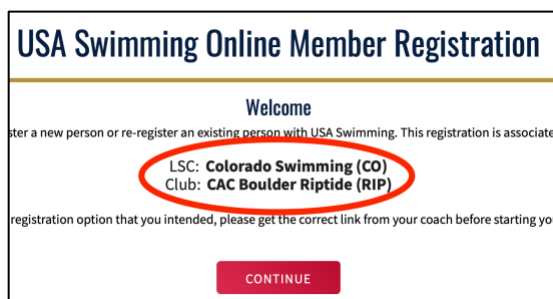

If you're still logged into USA Swimming from Step 1, **please log out of your account**. We've found that logging out and then logging back in using the url below is an essential step in the process.

Go to the following url: <https://omr.usaswimming.org/omr/welcome/DCC64152910975>

When you get to the Login page, enter your username and password and click the Login button.

The next screen will indicate that you're creating a membership for CAC Riptide. If you do not see "Riptide" displayed, check to make sure that you used the correct url. The multidigit code at the end of the url above directs the login to Riptide.

Select Register member and then select I am Registering my Child. The screens that follow should be self-explanatory.
