This level of our program is for highly motivated athletes from 11 and under years of age who are committed to long-term development and have met all of the listed group prerequisites. To promote continued improvement through the Rapid's long-term development plan, as well as success in training and at the Divisional and Provincial level. AGD 3 requires elevated commitment from its athletes.

Swimmers will have 12-15 competitions per year, highlighted by a regional, Divisional or Provincial Competition. **Attending meets will often require missing a half-day or more of school, and swimmers are expected to prepare appropriately for these situations.**

Parent/ Guardian or Adult Swimmer Initials: _____

RAPIDS PARENTS CODE OF CONDUCT

As a parent/guardian of a swimmer, parents must understand that swimming is simply a sport that their child does. The role of a swimming parent is to support, love and encourage their child. Swimming teaches children many life skills and can build one's character. The Rapids coaches will help teach the swimmers about commitment, work ethic, teamwork, living a healthy lifestyle and managing their time, not just how to swim fast. Support the coach and the program.

Kids progress at different rates. Parents must understand that some swimmers will be much more skilled and advanced at a young age while others will progress faster as they get older, stronger, more skilled or more coordinated. Your kids will have successes and failures. Be a positive role model in these times. As a parent, your children look to you to set the example, not to be a coach. If you have questions or concerns, talk to the coaches after a practice or phone or e-mail them. Don't gossip or speak negatively about the program. If there's a problem, discuss it with your child's coach or the Director of Swimming, rather than complain about it. There's always a solution. Your child and their coach will appreciate you for it.

Lastly, a swimming parent must understand that swim clubs are primarily driven by the support of its members. By volunteering or supporting the Club with any ideas that will help the team grow, be a better organization or assist with building a successful environment for children striving for excellence in sport.

CONFLICT RESOLUTION PROCEDURES

In keeping with the Team Philosophy outlined in the Parent Handbook, all communication between parents and coaches should be respectful and constructive. Aggressive or abusive language is not permitted.

When a parent has questions or doubts about what is happening at the pool, the first step should be to talk with the coach after practice about the concerns. If the parent is dissatisfied with the answers, they should **wait 24 hours** before further action. This requirement allows time for a reassessment of the matter in the hope of calming any emotional reactions.

If an agreement cannot be reached after discussion with the coach, the Parent Conflict Resolution flowchart should be used to determine the next appropriate action. With everyone's help, we can continue the tradition of Rapids being a place for young athletes to train and grow.

10. I agree to stay home if sick and/or experiencing symptoms of Covid-19 or any other infectious disease and follow health and safety protocols as required by Federal, Provincial and Municipal health organizations for sport.

Non-compliance with any of the above rules is grounds to have one's membership reviewed and/or revoked. In addition, at travel meets, these rules and those established by the coach or chaperone are sufficient grounds for swimmers to be withdrawn from the meet and to be sent home at their own expense, based on the discretion of both the coach and the chaperone.
