Observing Practices

It is our aim to create an optimal learning environment for our swimmers, and we kindly request your cooperation in ensuring this for the team. Your presence at practices is highly valued, as it not only provides encouragement to our athletes but also fosters a sense of community within our team.

We kindly ask that during practices, you refrain from being behind the coaches. We understand that this may seem like a minor concern, but it actually has a significant impact on the coaching process and development of the athlete. When parents are directly behind our coaches, it can distract the swimmers in the water, create a co dependence environment and undermine what a coach is working on or discussing with the athletes.

Our coaches work diligently to analyze and identify areas for improvement, and provide instructions. By maintaining a clear connection, they can better server the athletes This, in turn, leads to enhanced development and growth for our athletes and club.

To ensure that our coaches maintain this connection with the athletes we encourage viewing from the sides of the pool, or from bleachers or your own chairs is acceptable. Striking a balance between supporting the team and respecting the coaches' needs during practice supports our ultimate goal of an atmosphere that fosters effective coaching and optimal development for the swimmers.

We genuinely appreciate your understanding and cooperation in this matter. Together, we can provide our swimmers with the ideal environment for growth, skill development, and achievement. Should you have any questions or concerns, please don't hesitate to reach out to us at Admin@paseoaquatics.org

Thank you for being a part of our swim team community and for your continued support. We look forward to witnessing the progress and success of our talented swimmers.
