

## Club Excellence awards

“The Club Excellence Program is a voluntary program that identifies and recognizes USA Swimming clubs for their commitment to performance excellence.” In order to qualify for consideration teams must have a program that produces 18 & under swimmers who qualify for Summer Junior National Meet swim times in the preceding year. “

This USA Swimming award offers recognition to the TOP 200 USA Swimming registered teams, only. The top 20 teams are Gold; the next 80 are Silver; and the next 100 are Bronze.

To put this in perspective there are over 3000 teams registered with USA Swimming. SI Swimming alone has 25 teams (as many as 31 in recent years).

It is significant to note that CAST's achievement comes even as it remains the smallest SI team to ever make the Club Excellence list, and we've done it 8 times.
