- Changes in standings are calculated from winter season to winter season and from summer season to summer season. Teams are ranked by points achieved at the previous "like" state championship meets. (Previous short course championships are used to calculate the next short course season and previous long course championships are used for the next long course season.) The top 10 teams [by total points at the Championship meet(s)] AND other teams requesting to "move up" are placed into "AAA". The next 10 teams are placed into "AA", and the remainder into "A".
- Standings will remain the same for the entire season.
- New clubs joining the LSC will be placed into the "A" category, but they may request to be moved up for that season if they wish. Any team requesting to be moved up from "A" to "AA" or from "AA" to "AAA" must notify the MSI office at least 2 months prior to the beginning of the season to which the standings apply.
