OUR FOUNDATION

The foundation of this plan has three key pillars. Each one of these pillars is critical to achieving our goals.

RECRUIT

Our strategy and our work must be focused increasing the reach of our clubs and reaching all demographics and helping recruit and draw interest from our surrounding communities.

If we are able to help our clubs and coaches attract more swimmers, our competition will increase and our brand and reach will continue to grow on the national and global level.

ENGAGE & ENHANCE

Our strategy will engage our constituent groups and build pride in what being a part of Middle Atlantic Swimming represents.

It will engage new swimmers, it will engage swimmers of our past, it will engage our community and partners and supporters of Middle Atlantic Swimming

We will be leaders in innovation and creativity so that we can enhance the experience that our constituents have as being a part of Middle Atlantic Swimming.

PROMOTE

At the core of our strategy and our work, our efforts will be to promote our athletes, alumni, coaches, staff and Middle Atlantic Swimming as a whole, by telling their stories and creatively promoting their successes throughout our clubs and the greater swimming community.

THE HOW

STORYTELLING & MEDIA

Our communications plan is based around telling the stories that make Middle Atlantic Swimming so special.

These stories will be sorted and turned into weekly features, either written or video that can be posted on all digital platforms.

These stories will come from coaches, swimmers, staff, volunteers, community members and much more.

These stories will be used in making pitches to media, broadcast opportunities, community partnership opportunities and internal storytelling channels.

SOCIAL & DIGITAL MEDIA

A heavy focus will be placed on our social and digital media presences with a partnership with local photographers, along with gathering information and stories to highlight current successes, as well as celebrating our tradition of excellence that spans back decades.

A social and digital calendar will be produced to keep consistent and quality content featured on both the Middle Atlantic website, but also all of our social platforms to reach our various members of our audience.

THE HOW

CAMPUS & COMMUNITY OUTREACH

The communities are where we will make our biggest impact.

Taking advantage of opportunities to put our stories and our people in front of community constituents will be at the centerpoint of what we're doing, whether that's at meets or community events or with local and regional media.

Introducing swimmers, coaches and staff to more faces will allow our stories to be available and reach more people, in turn building a connection to Middle Atlantic Swimming

PARTNERSHIPS

By increasing our presence on digital and social platforms, Middle Atlantic Swimming will work with community and corporate partners to grow the reach and brand to contact even more members of our community and bring awareness to what Middle Atlantic Swimming is all about.

Celebrating our success and telling our stories will be critical to reaching more homes and members of our community, which will allow us more opportunities with partners and supporters.
