

ATAC Booster Minutes 1/12/21

Coach Terry Update:

The swimmers have adapted pretty well to the new routine and the team is back to a reasonable training level. He thinks the training cycle has been fairly effective.

Age group received more pool time over the winter break than normal and seniors less pool time. He is trying to spread water time as most effectively as possible.

During the high school season the focus was on speed orientation and now they have switched to endurance training.

Coach Terry would like parents help in reiterating to swimmers the importance of social distancing and wearing face masks. People are watching their behavior at the pool, and we have no leverage, so we must follow the guidelines.

While the number of swimmers in the program is down, Coach Terry is making ends meet. He has hired Coach Avery to work with the novice and age groups and Coach John to work with presenior.

Upcoming meets include:
