## COACH'S BUBBLE

I hope everyone made it through the Hurricane safely. If anyone could use help from the ATAC family, please let us know.

We are already well into the Fall season with high school swimming in high gear. Our team is still growing and rebounding from the participation losses during and following COVID, so that is wonderful to see. Keep asking your friends to come try out. They can swim in the winter too.

Congratulations to the ATAC swimmers who participated in the Panama City meet. ATAC finished as the first-place team in that meet and we had quite a few individuals win gold, silver, and bronze and enjoyed the beach. Great job ATAC.

Congratulations to the ATAC swimmers who competed in the Futures Championship in Huntsville, Alabama in July. The ATAC boys finished as the 2nd place Men's team with competition from teams from all over the Southeastern USA.

And finally, congratulations to Ethan Ekk for his participation in the Junior Pan Pacific Championships in Canberra, Australia in August. Ethan earned a Silver and two Bronze medals while representing Canada in this international competition. Additionally, Ethan set a new Canadian National age group record in the 200-meter freestyle. Great job Ethan.

We are looking forward to the upcoming ATAC Fall invitational, the Dothan meet, and the high school championship meets.

Remember consistency in practice attendance is very, very important for performance improvement.

-Coach Terry
