12 & under fast suits can be considered at the near FLAG level and up. For fast suits, always try a TYR brand first. If TYR is not fitting well, see your coach for a recommendation.

- TYR AeroFit
- TYR Thresher

13 & over technical suits can be considered at the near FLAG level and up. For technical suits, always try a TYR brand first. If TYR is not fitting well, see your coach for a recommendation.

- TYR Avictor (great suit for breaststrokers)
- TYR Venzo (great suit for freestyle and backstroke)

Each suit level brings an increased expense with less resistance and greater compression. Fast and technical suits have a short shelf-life. Fit them tight, use them sparingly, and follow fabric care instructions.

USA Swimming's ban on technical suits for athletes 12 & under began September 1, 2020.
