Athletes of the Month!!

SWIM

Lily Bixler: "Bix has been a huge leader in her group, and had really bought into what we are doing and in result, she has become a completely different swimmer since December. It's fun to watch her "go get it" attitude. Her grit, determination and passion for her teammates and Florida Elite is really uplifting and inspiring. She wants everyone around her to be better and she wants the team to be better and that's pretty powerful from a 10 year old."

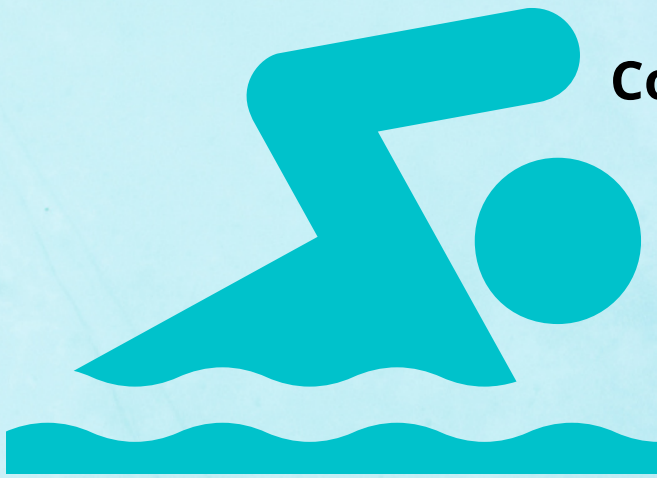

SYNCHRO

Gianna Sercu: Gianna is our athlete of the month! Gianna started this season with only 1 year of synchro under her belt and was committed to being on the 13-15 blue team. Since then Gianna has put in the work to improve and grow in her physical abilities as well as her mental toughness. This was on full display at Junior Olympics this month where Gianna give 100% and helped her team place 19th in team and 9th in combo out of the whole nation! Gianna is a team player always encouraging her teammates before they swim and cheering loudly for everyone! We have loved coaching Gianna this season and we know she will continue to work hard and stay committed to her goals as the Warrior she is!
