

N2/N3 Certification Reciprocity

The National Certification group has developed this chart to summarize how N2/N3 certification or recertification evaluations in one position may renew certifications in other position(s). This information is detailed in the [Certification and Recertification Requirements documents](#) for each position.

Summary of N2/N3 Evaluation Reciprocity

		Renews these certifications:					
		AO	ST	CJ	DR	SR	AR
A successful evaluation for:	AO	X					
	ST		X				
	CJ		X	X			
	SR		X			X	
	DR		X	X	X		
	AR		X	X	X		X

Also remember that while N3i is not a certification level in and of itself, a successful N3i evaluation can be used instead of an N2r evaluation if an official needs to renew their N2 certification before they can obtain their N3f evaluation.

Again, please remember that officials are responsible for **applying** for advancement or recertification once their evals and OQM meet sessions have been entered into OTS and any waiting period requirements have been met. The waiting period requirements are outlined in the [Certification and Recertification Requirements documents](#) for each position.
