

Corporate Partnership Program Information

Enrollment Process

- New members can enroll at the club or via your unique enrollment site.
 - Select home club and hit “Join” and then the swimmer will add any additional members, if applicable (spouse, children, etc.).
 - **SWIMMERS BETWEEN 12 – 17 YEARS:** when enrolling online, a DOB that’s 18+ MUST be entered for the swimmer. The parent/legal guardian will then accompany the swimmer to the club for their first visit to update the DOB and sign the waiver form on behalf of their child.
 - **SWIMMERS UNDER 12 YEARS:** swimmers under the age of 12 MUST have a parent enroll on the membership with them. The club will remove the additional \$15 in junior dues so the parent is not charged. If the parent intends to use the club, then our club will re-add the \$15 monthly junior dues.
- Members will receive a temporary card, take their picture, and receive a tour if applicable, upon their first visit to the club. Their permanent membership card will be sent to their address on file within 7-10 days.
- **LT Buck\$:** These will be available on your membership as soon as you enroll. They do expire 120 days after enrollment. Available for new members only.
- **Current Members:** No need to re-enroll. You can email KMumm@lt.life and she will add you to the subsidy program.

Company Subsidy

- **How it works:** The subsidy amount will be credited on your membership before dues are drafted. Any difference in dues after the subsidy will be drafted from the EFT you have on file on the 1st of every month.
 - Subsidy takes effect the first full month of a member’s membership.

Membership Options

- **Month-to-month:** A flexible membership. If you want to cancel or put it on “hold” just give 30-day notice at any of our locations.
- Club access is determined by one’s monthly dues rate. For example, a \$79 individual membership will grant that member access to all clubs priced at \$79/month and lower.

Removing a Swimmer

You must notify your Account Manager by the last business day of the month to remove any swimmers from your account before the subsidy is applied.

- Removing a swimmer from your program does **NOT** terminate their Life Time membership, just subsidy. Memberships must be canceled by the member at the club or via certified mail.

Invoicing

Invoices are emailed the first week of the month with net 30 terms.
