

THT Job Signup

Frequently Asked Questions

How many sessions are required of my family to work at THT home meets?

- Two sessions are usually required, though some meets may require three. The number of required sessions is listed on each meets' event page.

What is a session?

- A session is a segment of the meet that contains a portion of the meets events. Though there are exceptions, sessions are typically not more than 4 hours long. Job signup slots are generally slightly longer. Depending on the type of meet, there may be as few as one or two sessions a day or as many as three (morning, afternoon, and evening). If 2 family members work the same session, you receive credit for working 2 sessions.

Can I choose my work session?

- Yes! Most parents choose to work the same session their child is swimming. The variety of jobs available is the same each session with minimal exceptions. Just sign up for your session and position you wish to work when the job signup is posted (usually 2 weeks before the meet).

How many home meets are there?

- THT typically hosts 2 invitationals in the winter and 1 invitational in the summer. This can vary year to year and does not include any championship meets that THT might win bids to host.

Am I expected to work in meets that my swimmer is not participating in?

- YES. Working at home meets is a part of the financial requirements of being on the Torpedoes. Everyone is expected to ensure that all positions are filled for each meet.

Why do families with multiple swimmers work the same number of sessions as those with only one?

- Since work sessions are met mostly by parents, it is most fair to have an equal number per account. The number of sessions required in each time

period is determined by dividing the total number of jobs slots for that time period by the total number of active accounts for that same time period.

What happens if our family can't work at a meet?

- If a family can't work their session, they may arrange to have someone else work in their place. Check out the "For Hire" list located on the "[Job Signup Info](#)" section of our website. The [Job Signup Coordinator](#) might be able to assist with seeking out individuals to work in your stead but **the responsibility to fulfill your requirement is ultimately yours.**

Who can work?

- Anyone meeting the age requirements for specific jobs may work a session. Grandparents, Aunts and Uncles, Brothers and Sisters, or even the babysitter...as long as they are capable of doing the job!

Who do I contact?

- If you have questions or special needs, please contact the [Job Signup Coordinator](#).

Working at meets gives you, as parents, an opportunity to be involved in the sport your children are participating in. We need you...they need you...and it's fun!!
