

THT Job Signup Policy

Each year, THT hosts 2 invitationals during the short course (fall/winter) season and 1 invitational during the long course (summer) season. Additionally, THT may also host closed invitationals, which are like invitationals but with a limited number of teams, or intrasquads which are smaller meets that are only open to THT swimmers. On occasion, THT may also host a championship meet (e.g. Divisionals).

These meets serve as fundraisers for THT and help to keep dues low. In order to run the meets, we need workers to fill several different positions. At the beginning of each season, the Torpedoes will have a meeting for new parents to present information about work sessions and the types of positions available.

The following is a list of guidelines on the job signup requirements. If you have any questions, please do not hesitate to contact the [Job Signup Coordinator](#), your group representative, or any of the [THT board members](#).

1. All THT Families are expected to work a designated number of sessions (usually 2, sometimes 3) at all THT hosted competitions. This is part of your family's financial commitment for membership in the Torpedoes. It applies whether or not your child is swimming in the meet.
2. If you are unavailable to fulfill your meet requirement, you may ask another responsible individual to work in your place. In order to receive credit, sign up for the slot that your replacement will work and add their name and contact info when prompted for "Optional Contact Info". If you are having trouble finding coverage, you may also contact individuals on the "For Hire" list located on the "[Job Signup Info](#)" section of the website.
3. You must work the entire session to receive credit. If you need to leave before you've been dismissed, you may do so only if you have arranged for a replacement. Do not leave your position without first being dismissed by your chairperson, the Meet Director, or the Meet Director's designee. ***Leaving early without being dismissed may result in being charged for the session.***

4. **Failure to work the required number of sessions at a meet will result in a charge of \$100 per missed session.** Charges are posted to member accounts the week after the home meet is hosted.
5. In the event that **ALL** job signup slots have been filled, accounts that have not fulfilled their job signup obligation for that meet will **not** be charged.
6. The Meet Director will determine the number of workers needed for each session of the meet. As a result, the number of required job slots per account for each meet will be listed on the details section of each meet listed on the “[Events](#)” section of the website.
7. Approximately two weeks prior to each THT home meet, signups will be opened on the Torpedoes website. Once the needed number of workers is reached for a particular job, or session, no more workers can sign up for that job.
8. If you want to work more than the required number of sessions, please contact the [Job Signup Coordinator](#). This will help limit holding places for others and making the signup process as fair as possible.
9. If an emergency occurs, you are responsible for finding a replacement and contacting the [Job Signup Coordinator](#) to inform them of what is happening. The Job Signup Coordinator might be able to assist with finding individuals to help fill your slot, but the responsibility to fulfill your obligation is ultimate yours!
10. It is critical that all workers report on time. Therefore, if you arrive late, you run this risk of not receiving credit for that session. Please contact the [Job Signup Coordinator](#) if you have any questions on report times. **It is important that all workers sign in when they arrive for their session in order to receive credit.**
11. There are minimum age requirements for working at meets. These are listed under each [job description](#) beginning on page 6.
12. USA Swimming Guidelines as well as our insurance policies require that access to the pool deck be restricted to meet staff, coaches, athletes, officials, workers, and any other persons who have been specifically approved by the Meet Director during the course of the meet (including warmups). There are **no** exceptions to this rule.

The Meet Director has the authority, and responsibility, to make sure that each meet runs according to the rules and regulations of Indiana Swimming, Inc. and USA Swimming. Therefore, if you sign up to work a specific job during the meet, the Meet Director or his/her designee may reassign you to another job during your work session(s), depending upon the needs of the meet. We need your help to continue the Torpedoes tradition of offering outstanding meets.
