

Safety Committee Meeting

Nov 23, 2020 - 7 pm Zoom

Attending: Mo Schiffman, Pierre Guzman, Stephenie Glissmeyer, Ethan Pater, Mark Shyved

SSRP- Discussed BYUvrays winning the USA Safe Sport Drawing, so get a Zoom call with a National Team Member. Pierre will follow up with us and share how the process goes, as they navigate when and how to tell their team.

Coaching Boys to Men, Athletes into Leaders program- It has been a challenge for most teams to implement due to the timing and lack of ability to meet in person with the team. Don't know of any team that is successfully and consistently able to implement during this unstable Covid time.

USA vs School quarantine- Clubs have to decide how to handle Covid positives, there are some conflicting processes out there right now, the RTP is optional. So, no uniform requirement for teams, except guidelines from USA and State.

APT reminders- More and more swimmers are being penalized for having expired APT's they are then losing times that they achieve at meets. If teams send their meet files in 2 days before the meet, as is required this should not happen. This is a safety issue and not in the best interest of the swimmer. Mo will talk to Todd to see what can be done to rectify this, penalties? In practice, Todd should flag any swimmers when he gets the meet file 2 days before the meet. There is time to make corrections so athletes aren't penalized and we keep swimmers safe. It is a safety issue to have more and more swimmers flagged after a meet, all the flagging should happen before a meet, so any expirations can be corrected.

Championship meets coming up- Will we be able to have a table and a presence at these meets? Under the current circumstances, probably not. We will have to be creative with the way we approach meets this year, if the meets do happen, but it will probably not look the same as years past due to capacity limitations on swimmers and spectators.
