

## Athletes Committee Report

BOD June 9 2022

The Athletes Committee met on June 6th. At this meeting we discussed ideas for possible volunteering events. Ideas were beach/trail clean up, soup kitchen, or summer camp clean up. There would be two locations on the same day to reduce travel for people, one more north and one more south. This would happen mid to end of June.

We also briefly talked about committee positions being open in September and to start thinking about people we would like to get involved on committees or any other committees that current members would like to join.

Finally we discussed how to increase Zones participation. We said that having more accessible information would be nice for people to learn about the event as well as know whether or not they have qualified. Hosting an athletes open house was mentioned to give athletes more information about Zones and to get input on volunteering. Format of open house to be determined.

Respectfully submitted,  
Ethan Schulz
