

SENIOR COMMITTEE REPORT FOR OCTOBER 2019

The Senior Committee prepared and submitted a proposal for 3-4 training camp events to be conducted by Maine Swimming during the winter and summer. The proposal was initially submitted to the BOD in September and subsequently sent to the Coach's Committee for discussion. The result of the discussions were that fitting training camps in during the current winter season presents conflicts at every proposed date. The consensus was that planning should be done in conjunction with setting the meet calendar in the spring so that time could be created or set aside to avoid conflicts with scheduled meets.

Going forward the Senior Committee will plan on refining a schedule for the training camps and have it prepared for the spring meeting.
