The Lake Central High School Competition Pool is one 50-meter pool with ten 7.5-foot wide lanes each with non-turbulent lane markers divided by bulkheads into two 10-lane, 25-yard pools. Colorado Timing System will be used. A 10-lane electronic timing display with Colorado timing equipment and Meet Manager 6.0 will be used.

The west course (competition side) of the pool has a depth of eight feet (8') at the start end and four feet four inches (4' 4") at the turn end. The east course (diving well, non-competitive side) of the pool has a minimum depth of fourteen feet (14') at the start end and four feet eight inches (4' 8") at the turn end. Given the depth of the pool at the turn end is less than five feet (5'), in accordance with YMCA requirements, all 100 yard relays will have the 2<sup>nd</sup> and 4<sup>th</sup> leg swimmers start in the water. The east end (diving well) of the pool will be available for coach-supervised warm-up / cool-down throughout the meet.

The competition course has not been certified in accordance with 104.2.2C (4). Where a moveable bulkhead is used, course measurement of the lane in which the record was set (American, US Open, or National Age Group Records) must be confirmed at the conclusion of the session during which the time was achieved.

Balcony spectator seating for 800 is available in the aquatic center with additional seating in the nearby Town Square area. Swimmers will not be allowed in the spectator balcony during the meet. Spectators will be limited to using the eastern most staircase (near the entrance of the school) for all access to the balcony spectator area. Chairs will not be allowed in the balcony and will only be allowed in the Town Square area. Spectators will not be allowed to save seats. Only swimmers will be given admission to the central pool access and primary pool locker rooms. Plenty of free parking will be available at the front of the school.

**EMERGENCIES:** the facility personnel will handle all emergencies at the meet. These individuals will provide CPR and first aid as needed and will ensure that individuals with serious injuries are transported immediately to the nearest hospital for further treatment. Defibrillators will be on site.

Any coach, athlete or official who recognizes an emergency situation should immediately inform the facility's personnel and then make sure the vicinity of the emergency is clear for the emergency personnel to do their job.

**UNACCOMPANIED ATHLETE:** Each athlete must have a certified coach responsible for him/her while on the pool deck. The coach of the athlete must authorize in writing a coach from another team to represent their team and be responsible for the swimmer(s).

**CONCUSSION AWARENESS:** This meet will follow the YMCA of USA Concussion procedure. Anyone who observes or has knowledge of a potential head injury should immediately notify lifeguards and/or hired medical personnel. Once the injury report is completed, the lifeguard and/or hired medical personnel will notify the Event Staff, the athlete's coaching staff, and the Meet Director.

If a head injury occurs, the action plan below will be followed:

1. Athlete is removed immediately from participation by the Meet Director
2. Athlete must be evaluated by a licensed health care professional experienced in identifying and treating concussions. In addition, the athlete must be in compliance with the laws that are in effect within the jurisdiction where the meet is held.
3. The coaching staff will inform the athlete's parents or guardians about the possible concussion and give or send them the fact sheet on concussion.
4. The athlete will not be allowed back to warm-up or compete until a health care professional, experienced in evaluating concussions determines that the athlete is symptom-free and is OK to return to participation.

## **APPENDIX 3: ATHLETES WITH DISABILITIES CLASSIFICATION**

To ensure competition is fair and equal, all Paralympic sports have a system in place which ensures that winning is determined by skill, fitness, power, endurance, tactical ability and mental focus, the same factors that account for success in sport for able bodied athletes.

This process is called classification and its purpose is to minimize the impact of impairment on the activity (sport discipline). Having an impairment thus is not sufficient. The impact of that impairment on the sport must be proved. In IPC Swimming, athletes are grouped by the degree of activity limitation resulting from an impairment. These groups are called 'sport classes'. The process of classification determines which athletes are eligible to compete in IPC Swimming and how athletes are grouped together for competition.

Classification is sport-specific because an impairment affects the ability to perform in different sports to a different extent. As a consequence, an athlete may meet the criteria in one sport, but may not meet the criteria in another sport.

IPC Swimming caters for three impairment groups - physical, visual and intellectual.

### **Sport Classes**

The sport class names in swimming consist of a prefix "S" or "SB" and a number. The prefixes stand for the strokes and the number indicates the sport classes.

The prefixes stand for:

- S: freestyle, butterfly and backstroke events
- SB: breaststroke
- SM: individual medley. The prefix "SM" is given to athletes competing in individual medley events. It is not a sports class, but an entry index and calculated as  $(3xS + SB)/4$ ; for classes S1-4 who have a 3-discipline medley, the formula is  $(2S + SB)/3$ .

### **Sport Classes S1-S10 physical impairment**

There are ten different sport classes for athletes with physical impairment, numbered 1-10. A lower number indicates a more severe activity limitation than a higher number.

Athletes with different impairments compete against each other, because sport classes are allocated based on the impact the impairment has on swimming, rather than on the impairment itself.

To evaluate the impact of impairments on swimming, classifiers assess all functional body structures using a point system and ask the athlete to complete a water assessment. The total number of points then determines the athlete's S and SB sport classes. Due to the different demands of S and SB events, swimmers are often allocated different S and SB sport classes. The SM sport class is calculated from the S and SB sport class.

The following are general examples of impairments and resulting functional abilities described in each sport class profiles. The below combinations of S and SB sport classes are the most common combinations, but it is possible that that athlete has another combination of sport classes, for example S7 and SB 7.

#### **S1 SB1**

Swimmers in this sport class have a significant loss of muscle power or control in legs, arms and hands. Some athletes also have limited trunk control. This may be caused by tetraplegia, for example. Swimmers in this class usually use a wheelchair in daily life.

#### **S2 SB1**

Swimmers in this sport class mainly rely on their arms for swimming. Their hand, trunk and leg function is limited due to tetraplegia or co-ordination problems, for example.

# Illinois YMCA State Swimming Championships March 9 - 11, 2018

---

## **S3 SB2**

This sport class includes athletes with amputations of both arms and legs. Swimmers with reasonable arm strokes but no use of their legs or trunk and swimmers with severe co-ordination problems in all limbs are also included in this sport class.

## **S4 SB3**

Swimmers who can use their arms and have fair function in their hands, but who cannot use their trunk or legs would swim in this sport class. Athletes with amputations of three limbs could also swim in this sport class.

## **S5 SB4**

Swimmers with short stature and an additional impairment, with loss of control over one side of their body (hemiplegia) or with paraplegia compete in this sport class.

## **S6 SB5**

This sport class includes swimmers with short stature or amputations of both arms, or moderate co-ordination problems on one side of their body, for example.

## **S7 SB6**

This sport class is designated to athletes with one leg and one arm amputation on opposite sides, or a paralysis of one arm and one leg on the same side.

Moreover, swimmers with full control over arms and trunk and some leg function can compete in this class.

## **S8 SB7**

Swimmers who have an amputation of one arm are eligible to compete in this sport class. Also, athletes with significant restrictions across hip, knee and ankle joints could compete in this sport class.

## **S9 SB8**

Athletes in this sport class, for example, swim with joint restrictions in one leg or with double below-the-knee amputations.

## **S10 SB9**

This class describes minimal physical impairments of eligible swimmers. These include the loss of one hand or a movement restriction in one hip joint.

## **Sport Classes S/SB11-13 visual impairment**

Athletes with a visual impairment compete in three sport classes from S/SB11 to S/SB13.

S/SB11: These athletes have a very low visual acuity and/ or no light perception.

S/SB12: Athletes have a higher visual acuity than athletes competing in the S/SB11 sport class and/ or a visual field of less than 5 degrees radius.

S/SB13: Athletes have the least severe visual impairment eligible for Paralympic sport. They have the highest visual acuity and/or a visual field of less than 20 degrees radius.

In order to ensure a fair competition athletes in the S/SB11 sport class are required to wear blackened goggles. To ensure safety all S/SB11 swimmers must use a tapper, swimmers in the S/SB12 and S/SB13 sport classes may choose whether or not they wish to use one.

## **Sport Classes S/SB14 intellectual impairment**

S14 swimmers have an intellectual impairment, which typically leads to the athletes having difficulties with regards to pattern recognition, sequencing, and memory, or having a slower reaction time, which impact on sport performance in

general. Moreover, S14 swimmers show a higher number of strokes relative to their speed than able-bodied elite swimmers.
