WELCOME TO THE 1987 BOYS SWIMMING & DIVING FINALS

Interscholastic athletics are an important part of the curriculum of schools. Athletic practices and contests are laboratory courses for those students who seek challenge and meet standards of ability, commitment, discipline, teamwork, and personal conduct. They train young peoples' bodies in coordination, skill, strength, and endurance; and they encourage their character, developing hope, confidence, and perseverance.

School sports are very possibly the best bargain in education, providing challenges to large numbers of boys and girls at small fractions of the total school budget.

Celebrate the competition, win or lose!

John E Roberts
Executive Director M.H.S.A.A.
