Ice Dance

Ice Dance is basically a series of edges, steps and turns, organized in a certain way and set to music, that are repeated as one travels around the ice rink. Ice Dance will keep skaters on the ice and learning the control that figures also teach. Ice Dance will also add a sense of style to a skater's performance. There are many different styles of dances and they all call for different interpretations and expressions. This helps skaters adapt better to changing moods of music.

Group Ice Dance lessons will take place on Wednesday evenings from 7:20-8:20 (for most of the summer) check calendar for different times, as shown on the calendar as DNC. You will receive a lesson and have time for practice. This ice is also available for private ice dance lessons with your own ice dance coach or for ice dance practice. Please see the contract for the ice dance fees.
