

WHAT IT MEANS TO BE A SWIMMER SCHOLAR

1. Attendance is mandatory EVERY DAY

You have to commit to coming to the program every day after school. If you come every day, you will get faster, do better in school, and get access to help with many things including college applications and SAT practice

2. The program is free

Everything you need will be provided for you if you can stick to #1 above

3. You will be treated like adults

This is a serious program for serious student athletes. If you misbehave, are disrespectful to a fellow teammate or instructor, miss school, miss practice, or do not show a full commitment to the program, you will be removed from the program. Trident will not tolerate disruptions in the classroom or the pool. Consider this program your job that you have to go to after school every day. If you do not perform your duties at a job, you are fired from that job.

4. If you put the work in, you will be a success and you will have many options in the future

If you do not put the work in, you will not have many options in the future.
