Relay-only swimmers are not allowed to participate in the Time Trials. These Time Trials shall be held under a separate sanction and shall be limited to a maximum of one hour each day.

- A. Registration for Time Trials will be open at the Clerk of Course. Hours for Time Trial registration will be announced at the technical meeting.
- B. Time Trials will be conducted in long course meters each day.
- C. A swimmer is limited to a maximum of two Time Trials during the course of the Championships.
- D. A swimmer must be entered in the meet with a proven time to participate in the Time Trials.
- E. Except as noted below, long course Time Trials shall be swum in the order listed under the meet program as follows:
- ◆ First Day: that day's events, followed by the remaining events in the meet.
 - ◆ Remaining Days: that day's events, followed by the remaining events in the meet.
 - ◆ The 800 and 1500 Freestyle will typically be offered on only one day of the meet. The day will be determined by the Meet Referee, depending on the size of the meet, time available, etc; and be announced at the Technical Meeting.
 - ◆ The 50s are the last events swum in Time Trials, except on the day(s) which they are contested in the meet, when they will be the first event of time trials.

Entry fees for Time Trials are the same as those established for the meet.

Championship Procedures

Transgender Participants

Athletes attending this event must abide by IOC policies that state:

Those who transition from male to female are eligible to compete in the female category under the following conditions:

- ◆ The athlete has declared that her gender identity is female. The declaration cannot be changed, for sporting purposes, for a minimum of four years.
- ◆ The athlete must demonstrate that her total testosterone level in serum has been below 10 nmol/L for at least 12 months prior to her first competition (with the requirement for any longer period to be based on a confidential case-by-case evaluation, considering whether or not 12 months is a sufficient length of time to minimize any advantage in women's competition).
- ◆ The athlete's total testosterone level in serum must remain below 10 nmol/L throughout the period of desired eligibility to compete in the female category.
- ◆ Compliance with these conditions may be monitored by testing. In the event of non-compliance, the athlete's eligibility for female competition will be suspended for 12 months.

Any athlete who desires to submit medical records to stay in compliance to the IOC rule shall submit to USA Swimming's National Team Managing Director: 1) a signed declaration that the member's gender identity is female, and (2) an attestation from a medical professional that the member's total testosterone level in serum has been below 10 nmol/L for at least 12 months prior to the member's first competition. USA Swimming will not accept actual test results or other medical records from a member and any such documents received by USA Swimming will be destroyed immediately.

As a transitioning athlete you may need to utilize a medication/substance that is prohibited and would require approval for use. To ensure compliance with these rules please contact the U.S. Anti-Doping Agency (USADA) at 719-785-2000.

USA Swimming follows IOC guidelines for competition, and therefore, this information is subject to change as policy surrounding transgender elite athletes evolves. Information and selection criteria will be updated when changes are made.

Video Review

USA Swimming will be providing a "VIDEO REVIEW" station on deck for coaches and athletes. Sport Development Managers will make video of all races available shortly after the each heat is completed. Coaches (and athletes) have the option to bring their own flash drive, and we can download the race for them. Look for the USA Swimming Video Review banner and stop by with your athlete to watch and review video of your athletes' races. There is no charge for this service. Time Trials video will not be available.

Doping Control

The 2021 Speedo USA Swimming Summer Championships are subject to Doping Control.

All athletes at this competition are subject to drug testing conducted by the United States Anti-Doping Agency (USADA), WADA, and/or FINA under the In-Competition Testing program. This section is intended to give an overview of the key points relevant to this program and the testing which will be conducted at the competitions governed by this booklet. Athletes should visit <https://www.usada.org/athletes/antidoping101/> for important information that all athletes, coaches, and their parents must be aware of. Key details from that document are listed below. Athletes should check their medications prior to use and note that some medications may require approval that will take at least 21 days.

What substances are banned?

Per USADA: "As a signatory to the World Anti-Doping Code, USADA tests for substances and methods found on the World Anti-Doping Agency [Prohibited List](#). It's important that athletes are aware of the substances and methods on the Prohibited List, as an athlete is responsible for any prohibited substance found in their body, regardless of intent. It's also important to understand that certain substances are prohibited at all times, while others are prohibited only during competition. In some cases, a substance is only prohibited in a certain sport. Use the re-sources on this tab in conjunction with the next step about medication and the re-sources available pertaining to medication to determine whether or not a substance is prohibited." [Read the Athlete Guide to the WADA Prohibited List](#)

What about medication?

Per USADA: "Athletes need to be aware of the prohibited status of any medication they are taking, whether it be an over-the-counter or prescription medication. The easiest way to understand your medication is to use USADA's [Global DRO](#) service, where generic and name brand products, or specific medications, can be searched. Results will yield information including the in- and out-of-competition status, any threshold information, as well as sport specific information for those substances prohibited only in certain sports. Athletes or their support team can also speak to an expert by phone during business hours [8am – 5pm Mountain Time Monday-Friday] by calling Athlete Express at 719.785.2000.

The [USADA wallet card](#) also provides information on the most commonly ingested medications. If and when a medication is prohibited, athletes may choose to stop taking or replace the medication with a non-prohibited substance or explore the [Therapeutic Use Exemption](#) process.

Your health is your first priority. Any decision to stop or start a medication should be made in consultation with your medical provider. It's important to understand that Dietary Supplements are not medication. They are regulated and manufactured differently. For these reasons, USADA is unable to provide guidance on specific dietary supplement products. For more information visit [USADA's Supplement 411 resource.](#)

Therapeutic Use Exemptions?

Per USADA: "In some situations, an athlete may have an illnesses or condition that requires the use of medication listed on the World Anti-Doping Agency's [Prohibited List](#). A Therapeutic Use Exemption or TUE provides permission for an athlete to have a prohibited substance in their body at the time of a drug test. The process for obtaining a TUE is thorough and balances the need to allow athletes access to critical medication while upholding clean athletes' rights to compete on a clean and level playing field. In some cases, the TUE requirements are different for national-level athletes vs. non-national level athletes. Athletes interested in obtaining a TUE should visit the [Therapeutic Use Exemption](#) page, where they can determine if they need a therapeutic use exemption, begin the application process, and find answers to the most frequently asked TUE questions."

Understand the Sample Collection Process:

Per USADA: "Athletes selected for testing are subject to both blood and urine testing. The processes are designed to be both effective in preserving the integrity of the sample, yet safe and comfortable for the athlete. Understanding the processes as well as an athlete's rights and responsibilities can help to make them less intimidating. There are additional considerations for minor athletes and disabled athletes. Learn more about the sample collection processes [here](#)." NOTE: Minor athlete should always have a representative with them in doping control.

Per established doping control testing protocol, a Witnessing Chaperone must directly observe an athlete providing a sample. The witnessing chaperone is always someone of the same gender as the athlete. To protect the rights of a minor athlete, someone must observe the witnessing chaperone observing the athlete as they provide a urine sample. That person cannot see the athlete – they can only see the witnessing chaperone watching the athlete. Per USADA's established protocol the athlete has the right to choose who will be in that role. In the event that a coach acts as an Athlete Representative for an athlete of the opposite gender, they may request that someone on USADA's crew observe the witnessing chaperone observing the athlete. Then the coach can be the athlete representative for the rest of the processing of the paperwork.

NCAA doping control rules are different than the rules for this meet. Be sure all athletes have checked their meds with USADA and understand this information.

Doping Control rule for athletes previously eligible for out of competition drug testing: Athletes who were previously eligible for out of competition (no-advance-notice) doping control and officially retired have a 6-month waiting period before they can compete (should they choose to return to competition) and must again be subject to out-of-competition testing during this re-instatement period. The athlete is not permitted to compete in any USA Swimming sanctioned events (local competitions all the way up through National competitions including meets with a dual sanction from Master's and USA Swimming) or FINA sanctioned events. If you have an athlete in this situation, please email smichael@usaswimming.org immediately.
