

USA Swimming Registration Information

WHO: EFSL swimmers who wish to have their EFSL Long Distance Championship and Short Distance Championship times included in the USA Swimming SWIMS database.

Note: ONLY LDC and SDC times are eligible to be sent to USA Swimming for inclusion in SWIMS.

WHY: USA Swimming registration is **COMPLETELY OPTIONAL** for EFSL members. Some EFSL swimmers may wish to have their times included in the SWIMS database for college recruiting visibility, maintaining eligibility to compete in various swim meets in the US, etc.

HOW: USA Swimming implemented an entirely new membership and registration system in September 2022. Even if you and/or your swimmer previously had an account in the old system, you will need to create a new account if you have not yet done so.

Once the account is created, any existing swimmer records will be linked to the new ID number.

All USA Swimming members have an ID NUMBER. It is a random 14-digit combination of numbers and letters. If you are already registered with USA Swimming, or if you choose to register now, you **MUST SEND THE NEW ID NUMBER TO YOUR TEAM STATISTICIAN** in order to be assured that your new ID will be entered in the meet file and championship results will be sent to the SWIMS database.

If you wish to register with USA Swimming, here are some resources for the new registration system:

<https://www.usaswimming.org/about-usas/resources/online-member-registration>

The parent must first create an account and then use their parent login credentials to access the registration link.

Here is the 2023-2024 unattached registration link:

<https://omr.usaswimming.org/omr/welcome/96C2C27E0FA048>

If the athlete is a former member, the parent can do a search to locate the athlete's new ID number.

Questions? Review the USA Swimming information page linked above.
