

## **STAR Equipment List – 2023-2024**

The following are suggested items for each group to help them maximize their time with us here at STAR. In learning to swim there are many tools that we use, in addition to our minds, and we feel these will benefit the swimmers in their development. Please be sure to clearly mark your equipment once it is received with your name to help prevent it being lost or misplaced. For specific questions please check with your site or group coach.
