

How to set up text message notifications in your Team Unify account:

1. Log in to your Team Unify account through our website.
2. Go to "My Account"
3. Under Account Information there will be an area to enter "SMS" phone numbers (this needs to be a cell phone that receives text messages)
4. Enter the phone number (or more than one) and select the "Carrier" aka Verizon, Sprint, etc.
 - This number can be a parent(s), family member(s), and/or swimmer(s)
5. **Save** the information
6. Return to the area that you entered the "SMS" phone number(s)
7. Above the number it will say "Unverified" highlighted in yellow
8. Check your cell phone messages to see if you received a text message from "notifications+njbjcct@teamunify.com"
9. Follow the instructions in the message to either click on the link or (see #10):
10. You can click "Unverified" and there will be a place to enter the code sent to you in that notification.

Once those steps are completed just make sure you have **Saved** your information on your account and you will be able to receive text messages.
