

# **Parent Code of Conduct- PHAST Port Hawkesbury**

## **Parent Viewing/Observation Area**

Parents wishing to watch practices need to keep in mind that training a large number of swimmers takes all of the coach's concentration and parents must not interrupt or interfere with the training. Parents are asked to remain in the observation deck.

As PHAST does carry liability insurance for the safety of athletes, officials and coaches alike, it is not inclusive of parents. Understanding this limitation, parents are not permitted on pool deck during practice, or competition at any time. If you would not skate out into the middle of a hockey practice, wait until swimming is over to speak to a swim coach.

Should parents have any questions regarding the training activities please contact your child's coach. If there are further questions, please then contact the head coach. If the head coach cannot provide the needed information to you, then contact the president of the club (Antigonish, or in Port Hawkesbury). A meeting will be arranged between coach, asst. coach, president and parent.
