Three-Meter Competition

Championship Format

(Rule set for proposed Phase 1 - 3m in UIL)

The purpose of the 3-Meter Diving Pilot Program is to allow the “diving-specific” athlete the occasion to expand their sporting repertoire, further develop their diving acumen, and posture them for potential collegiate athletic and academic scholarships, opportunities, and life experiences. The 3-Meter Diving Pilot Program will promote the diversity of the swimming and diving community at the high school level and significantly increase the versatility of the “diving-specific” athlete, making them a more productive and contributing member of the Swimming and Diving Team in gaining overall recognition in the team sport points rationale. This ruleset is to provide a uniform for administering 3-meter in all TISCA Championship events.

Qualification:

All diving athletes that qualify for the 1-Meter event in a TISCA Championship meet are eligible to participate in the 3-meter Pilot Program event. (Suggested DD requirement for 1-meter is 12.2-12.8). There is no DD requirement for the 3m Pilot Program event.

Team points will be awarded to the participants of the 3-meter Pilot event in TISCA Championship meets. Athletes will be judged, scored, and recognized for their performance

in the event. No penalty will be assessed to those diving athletes wishing to not participate in the Pilot Program event (3m).

Rules:

Diving athletes in the 3-Meter Pilot Program event will perform a diving list of six total dives to include:

- one Voluntary dive
- five Optional dives

(Rule of reference: NFHS 9-4)

The Voluntary dive will have a maximum Degree of Difficulty (DD), the multiplier attached to all dives, of 2.0. Any dive can be labeled as “Voluntary”.

The Optional dives will have an unlimited DD and must represent all diving categories.

True D.D. will be applied to the 5 Optional dives in the diver’s entered list.

Eligible dives and DDs will be calculated using the FINA (World Aquatics) DD Table.

The execution of the 3-meter Pilot Program event will utilize the most current UIL/NFHS rules and procedures for diving events as listed in Rule 9 of the NFHS rule book.

- except wherein listed 1-Meter specifically, the term 3-Meter will be interjected and assumed in the governance of the meet

The 3m Pilot Program event may be run simultaneously with the 1m contest, or separate, depending on the diving judge’s availability.

Use CleanEntries for submitting dive sheets. Dive sheets are due at the same time swimming entries are due.
