

My name is Izzi Henig and I am a sophomore swimming at Yale University. I'm majoring in Earth and Planetary Science, in the Atmosphere, Ocean, and Climate track. I've absolutely loved my time so far at Yale because of the academic and athletic excellence I'm surrounded by on a daily basis. I owe a lot to PASA for teaching me how to work hard and persevere through tough moments in pursuit of my goals. It is an honor and a

privilege to get to swim and study at Yale, and I wouldn't have gotten there without the support of the coaches and my fellow swimmers on PASA.
