

SHORT COURSE CHAMPIONSHIPS - STATISTICS – 2007

Two objectives of splitting the format to 14 and under swimmers were 1) to increase the number of swimmers participating in the Pacific Northwest Swimming Short Course Championships and 2) to allow the 11 and 13 year olds an opportunity to compete in the championship meet by allowing each of the groups to have their own qualifying times. To this end, both objectives were met.

- 808 swimmers were registered in the meet.
- 113 Relay Only swimmers
- 92 swimmers (13 per cent of individual qualifiers) who had qualified for the meet did not participate. The large number of 14 year old girls (23) did not compete as coaches chose to have their swimmers compete in the senior meet – not both age group and senior meets.
- 342 bonus swims were entered in the meet (approximately 10 percent of the total individual entries).
- 359 first time qualifiers for the meet. This number will probably be less the second year of the meet.

The following charts show:

- The number of conforming entries for each event
- The number of non-conforming qualifying times for the meet (long course meters and short course meters) for each event.
- The number of bonus swims for each event
- The number of conforming qualifiers for each event
- The proportionate number to reach the number of swims in each event. NOTE: The ten and under standard is based on 10 years old only.
- The 2007 standard
- Using the proportionate number, the time for each year 2004-2007 is listed. NOTE: The quality of boys has steadily improved over the past four years. The distance strokes have generally improved over the years. The number of swimmers participating in the 50 yard freestyle and 50 yard backstroke events is low in comparison. The most popular event in the 200 yard individual medley.

Submitted by Lyle D. Campbell
