

I graduated from UCSD in 2016 and swam all four years there as well. I loved everything about my times as a Triton, and miss all my teammates and close proximity to some of the best beaches dearly. I was an International Studies-Sociology major and a month after graduating, I took an au pair position in Lugano, Switzerland where I lived for a year. Once I got the travel bug out of my system, I buckled down again and thought more seriously about going back to school.

Which brings me to today! I am currently pursuing my master's degree in Sport Management at University of San Francisco. With this degree, I would love to find work in a college athletic department, specifically in development/external relations as that's what I've done as a Grad Assistant for the USF Athletics since I started the program. I graduate this coming December and actually have plans to find work and a place to live in Austin once I'm done in the city! I've been to Austin a few times now and am absolutely in love with it everything about it.

Until then, I am currently sheltering at home with my parents and wonderful golden retriever, Wally!
