

Swim Meet Policies

Participant Drop Off/Pick Up

- Participant drop off/pick up is in Lot C. Drop off/pick up in front of the AFC or in the street is prohibited.
- The Athlete entrance and Swim Team Check-In is located on the side of the building across the bridge from Lot C.
- Parents/guardians will not be permitted entrance through swim team check-in or at the lower level of the facility unless volunteering with the swim meet.
- Please designate a meeting place for your participant. We recommend the AFC lobby, or the swim team check-in doors.
- Lot C is the main parking lot for rental meets hosted at the AFC. If Lot C is full, overflow may park in Lot A.

Spectating & Guest Facility Access

- Parents, guardians, and/or spectators may enter the facility through the AFC front entrance to access the spectator seating area.
- Spectators are prohibited from sitting or standing in the aisle/stairs, or crowding behind the seating area.
- Folding chairs and stadium seats are not permitted in the spectator seating area.
- If a capacity limit of spectator seating is reached, the adjacent Group Exercise room will be used for overflow.
- Swim Meet participant guests must have an active membership or purchase a day pass to utilize the facility's fitness areas.

General Policies

- For participants to enter the AFC main (upper) level, they must be wearing shoes and a cover-up/towel over their swimsuit.
- For larger swim meets that issue credentials, participants must bring their credentials to be allowed to return downstairs.
- Please report and/or seek assistance for any injury, illness, or incident to the Mason Recreation Staff at our Customer Service Desk.
- Smoking, vaping, and the use of tobacco products are strictly prohibited within our facility.
- Glass and coolers are strictly prohibited.
- Mason Recreation is not responsible for lost, stolen, or damaged items.
- Foul language, inappropriate behavior, and abuse of the facility will not be tolerated.

Anyone not adhering to these rules may be asked to leave the premises.
