| March 6-9 | | St. Mary's College of Maryland | MD | State Championship Cuts | 14 & Under Qualifiers | | | | |
| | | | | | | | | | |

Intrasquad Meets: While attendance is not required, these are highly recommended. I plan to make these team building experiences along with swimming. It allows all of our athletes to gather and mingle. Hoping to get a couple post-meet team dinners. It allows younger kids to race more often and build experience allowing them to go to USA Meets more prepared. I emphasize these meets for older athletes as well because it offers them the opportunity to experiment with race strategy and build confidence in longer events they may have limited opportunities to do throughout the year. The times this year will count as USA Times.

There is a Championship meet for all ages and all skill levels. Which meet(s) your swimmer will attend will be determined by the end of the last meet. Most swimmers will only attend one meet. However there will be a few of you that qualify for two or three events at an upper level meet and still have 6 or so events eligible to be swum at a lower level meet. Championships is all about rounding out the season and putting all practices and meets to work. So, I like for everyone to swim almost all the events during championship circuit.

I will assume that every swimmer is attending every meet unless they have declined attendance to the event on TeamUnify. You will be responsible for entry fees if you miss the deadline. To be clear... IF there is nothing input on TeamUnify, I will automatically enter them and you will have to pay.
