

CAMP BARCLAY

NEWSLETTER

It's been a **STORMY** week!

Despite the persistent rain, our campers have been brimming with enthusiasm and creativity! The weather may have dampened the grounds, but it certainly didn't dampen spirits. Arts and crafts sessions became a hub of creativity.

Craft Time!

This week we focused our crafts on our favorite colors- Red, White, and Blue!

Rizzo's Wildlife Show!

Our rainy Wednesday morning turned into an exciting adventure for our campers! Wildlife shows are a fantastic way to engage young minds and spark curiosity about the natural world. The diverse array of animals, from the soft and cuddly chinchilla to the more intimidating caiman and Burmese Python, provided a thrilling experience for everyone. It's wonderful that despite some initial nerves, many campers embraced the opportunity to get up close and personal with these exotic creatures, especially the python! Such interactions not only educate, but also help to foster a respect and appreciation for wildlife, which is crucial for conservation efforts. It's an experience the campers are likely to remember for a long time.

Counselor Corner!

Katie B. attends Virginia Tech and has been at Barclay for 3 years! Katie's favorite activity to do at camp is to play in the pool with our campers!

This is Benny- and he is making quite the splash as a 1st year counselor! He is a rising senior at Delran H.S., where he participates in Baseball and Wrestling. His favorite activity to do with our campers is to play soccer!

Upcoming Events

Tie Dye Day is scheduled for:
Wednesday, July 9th
(Raindate is Thursday, July 10th)
