Update on the CIOC Constitution

The CIOC President, Donald McLean and Secretary General, Carson Ebanks met with the IOC Legal Department and received their approval to conduct these elections under the old constitution. It is understood that it will be a short period of time as the CIOC would like to update the constitution.

The IOC would like an athlete representative, with full voting rights, to attend all Annual General Meetings. They would also like the CIOC to form an Athletes Commission.

Five people representing Olympic Sports were nominated to join the Executive Committee for a brief period of time until the CIOC update their constitution.

The five people that were nominated and elected as additional members of the Executive Committee are; Janet Sairsingh as representative for Table Tennis, David Reid for Taekwondo, Toni Pinkerton for Gymnastics, Leyla Jackson for Boxing and Craig Merren for Cycling.

Thank You!

The CIOC would like to thank the Pan American Sport Organisation (PASO) and International Olympic Committee (IOC) for providing funding that allowed us to purchase the CIOC Olympic House.

The CIOC would also like to thank the Cayman Islands Government for providing financial support which allows us to further aid our the athletes of the Cayman Islands in terms of participating in elite training and competition.

Thank you to Betty Beraud for hosting great events, which provides the CIOC with additional funding that benefit our athletes greatly.

Without these additional contributions, we would not have the funds to support as many Caymanian athletes as we do.

We would also like to thank our National Federations for their efforts and informing us about their activities and arising.
