Friends of Niskayuna Rowing

Participant Registration Database Access Policy

Friends of Niskayuna Rowing (FNR) has established a policy for limiting and restricting access to the database of information provided by participants as part of registration for our rowing programs. The database of student and/or adult registration information may be managed by FNR directly or by a web-based service, such as Sports SignUp.

Access to the participant registration database is limited to FNR board members and to a bookkeeper appointed by the board to manage registration invoices and receipts.
