YMCA Competitive Sports are a membership based, team structured program through which local YMCAs develop youth, promote healthy living and encourage social responsibility. As a program focused on providing a supportive community, a YMCA competitive team is characterized by a personal, social and sustained commitment to the team in regard to practice, competition and authentic relationships between athletes, coaches and families. In order to promote this objective, an athlete shall represent only one competitive team in a given sport for a period of 90 days prior to participating in a YMCA championship competition. **The one exception is for an athlete who represents his/her High School in scholastic competition during the High School competitive season.**

All YMCA swimmers who also swim competitively with their High School swim team are eligible for reduced Y swim team fees. In order to provide the reduced fees, athletes must have this form signed by their coach to verify eligibility.
