

Dear Families

Access to NSA-PC is a privilege and it is important to remember the following when entering the Navy Base:

- Please remember to have a current vehicle registration and insurance. The base conducts random vehicle checks and they will ask you for this information.
- When entering base, please show the gate guard your driver's license and tell them you are on the base access list for Seals Swim Club. If you have any issues with getting on base, please contact Mike (319-0822). He will communicate on your behalf if there are any issues.
- You are allowed on base for swim team only. This means you are allowed to drive to the MWR pool or the Navy Dive School. Your base access is limited to these places and our practice days and times only.
- You are not allowed to transport adults in your vehicle. The only members able to do this are active duty personnel and DoD employees. You can bring children in your vehicle.
- Please keep in mind, this is a military base and the gate guards are expected to follow strict rules. If you have any issues, please do not bother them. Mike is the best person to help you with any issues you may encounter.

Thank you for your preparation and compliance with the rules.

Sincerely,

Seals Swim Club
