

COVID-19 Incident Response Plan

Proactive Measures

1. All swimmers will be asked to sign our new COVID Guideline Agreement (see below). This agreement has been added to our registration process as a simple addendum. If you have already registered, or you are not able to register yet, you must complete the form (electronically or via print) and submit it to the coaches.
2. Swimmers are encouraged to take their temperature before coming to practice
3. Masks may or may not be required at Rattan Creek pool due to City of Austin protocol. If this is the case, swimmers will be expected to wear a mask to and from practice. The mask should not be removed until the swimmer is ready to enter the water. The coaches will wear a mask for the temperature check on the pool deck.

Swimmer/Family Member Incident Protocol

1. The affected swimmer will immediately notify the coaches and enter government mandated quarantine.
2. The coaches will immediately notify the workout groups in which the affected individual has trained.
3. The coaches will immediately notify the facility operator(s) of the facility/facilities at which the affected swimmers trained. The team and the facilities will work together to follow government reporting procedures. The operators will then conduct a deep-clean in accordance with their increased sanitation protocols.
4. The coaches will follow up by consulting our attendance logs and working with the family to trace all possible transmission vectors.
5. The coaches will use the gathered information to individually contact all individuals who came into contact with the affected swimmer.
6. The coaches will follow up with a brief incident report in the week's newsletter.

Coach Incident Protocol

1. The affected coach will immediately notify the rest of the staff.
2. The coaches will send out a team-wide email broadcast in order to inform the team.
3. The coaches will immediately notify the facility operator(s) of the facility/facilities at which the affected swimmers trained. The team and the facilities will work together to follow government reporting procedures. The operators will then conduct a deep-clean in accordance with their increased sanitation protocols.
4. The coaches will follow up by working with the affected staff member to trace any potential transmission vectors.
5. The coaches will follow up with a brief team-wide incident report in the week's newsletter.

COVID-19 REQUIREMENTS

I agree to abide by the developing guidelines set forth by CKSwimming to help prevent the spread of COVID-19 or any other contagious diseases. I and my family will not come to a practice/meet if we have a fever or are exhibiting symptoms of illness. If I find that any of my family contracts the virus, I will notify CKSwimming as soon as possible. I understand that I or any of my family may be turned away from swimming if exhibiting fever or other illness symptoms.

I've read the above and agree.
