Foreign Athletes Who Train with USA Swimming Clubs

When an athlete member of a FINA Federation wishes to come to the United States and train with a USA Swimming club, the foreign athlete does not have to become a USA Swimming member if the athlete will be training with the club for **less than 30 days**. USA Swimming's insurance will provide liability coverage for the athlete, the USA Swimming club and coach during this 30 day period. The Mutual of Omaha Excess Accident Medical policy will provide coverage while the athlete is training or competing in USA Swimming sanctioned meets.

If the athlete will be in the United States more than 30 days training with a USA Swimming club and competing in USA Swimming meets, he/she must become a USA Swimming member.

United States Citizens Residing Outside of the United States

Upon request to National Headquarters, USA Swimming will register athletes and non-athletes living outside the specified LSC boundaries provided the individual is a citizen of the United States.

USA Swimming wants to be responsive to athletes and non-athletes who are United States citizens and who happen to reside outside the United States. Often those athletes make special trips to the United States to participate in USA Swimming meets and would like their times to be counted for Top Times purposes, Age Group Records, etc. However, there is a major concern about insurance and coverage in those situations we cannot adequately monitor. The following is in effect:

- When a request is made, USA Swimming will register athletes and non-athletes living outside the specified Local Swimming Committee (LSC) boundaries if the individual is a United States citizen. Registration will be done through National Headquarters, Member Services Department. USA Swimming insurance coverage for registered athletes and non-athletes will be in effect only when the individual is participating in practices, meets or other USA Swimming activities within the LSC boundaries. USA Swimming insurance coverage will not apply outside the LSC boundaries.
- If FINA (the international federation for aquatic sports) has recognized a territory, federation or possession (i.e. Puerto Rico, Guam, Virgin Islands) as having a separate governing body, then USA Swimming does not have jurisdiction and cannot register swim clubs in the area.

Representation

**By Carol Zaleski, Chairman
FINA Technical Swimming Committee**

USA Swimming National Headquarters receives many inquiries about "foreign athletes" and the representation rules.

It is important to distinguish between FINA (the international aquatic federation) rules and USA Swimming rules. Let us deal with the FINA representation rules first:

FINA Rules:

Club Representation

According to FINA, an athlete may join as many clubs within the same country as he wishes but can only represent one at a time. Each federation, however, may have more restrictive rules relative to representation.

An athlete who temporarily or permanently moves to a new country may join a federation club in that country.

International Representation

The rules regulating international representation and competition are, as you would expect, somewhat different. To compete representing a country or sport country, the athlete must be selected by the national federation belonging to FINA.

What is a "sport country?" As defined by FINA, sport country means a geographical territory or region which, though not recognized as a country, has certain aspects of self-government at least to the extent in being autonomous in the control of its sports, and is recognized as such by FINA. For example, Puerto Rico is a sport country.

To represent a country, the athlete must be a citizen of that country. In the case of a naturalized citizen, the athlete must have established a residence in that country for one year.

Athletes who have two nationalities, according to the laws of the two countries, may choose a "sport nationality." They do so by representing the chosen country (competition representing a country, not a club). Once having chosen a sport nationality and competed representing a country, the athlete must wait 12 months before being able to represent a new country. The athlete who wishes to represent any new country must notify the federations involved, establish residence in the new country and wait 12 months.

USA Swimming Rules:

All of the above is different and distinct from the USA Swimming rules — rule 203.3, "For a swimmer to represent a USA Swimming club in a competitive event, one hundred and twenty (120) consecutive days must have elapsed without the swimmer having represented any other USA Swimming club in USA Swimming competition...." — rule 203.9.2, "....One hundred and twenty (120) consecutive days must elapse after a swimmer represents any organization before he/she can represent a USA Swimming club."

The FINA rules must be considered in those sections that refer to "foreign swimmers." The USA Swimming glossary defines foreign swimmer as, "an athlete member of a FINA member-country federation, other than USA Swimming, or an athlete member of USA Swimming who is not eligible to represent the United States in international competition due to FINA sports citizenship requirements."
