 Warmup in the sectioned off swimming area

- There will be a medical treatment tent near the finish of the race.
- A paved and partially shaded area is available for tailgate type tent set-up. Spectators and swimmers are encouraged to bring chairs and tents.
- Operation of a drone, or any other flying apparatus, is prohibited over the venue (race course, athlete/coach areas, spectator areas and open ceiling locker rooms) any time athletes, coaches, officials and/or spectators are present. The USA Swimming Program & Events committee granted a waiver for this meet; authorized operation of a drone is only permitted by the meet host.
- By attending or participating in this competition, you acknowledge that you may be videoed to provide for broadcast of the meet via television, live streaming, webcast, or similar technology. You voluntarily agree to allow the use of your name and pictures for this purpose.

Swimming is in a lake cove and there is no current that would affect the swimmers. Other than wake from boats there are no known water conditions that will interfere with the athletes' swim.

Natural Swimming Areas are required to take two water samples per month during the swimming season. These samples are analyzed for E. Coli. If the sample is greater than 349 colonies/100 ml, the area must be closed until a satisfactory sample is taken. Natural Swimming Areas are issued annual permits based on pre-season bacteriological samples." Based on this, the meet director will update the Open Water meet site for potential closings.

In case the race needs to be abandoned, air horns and safety craft will direct the swimmers to shore. Once on the shore walk to designated meeting spot for transportation to the meet start, where swimmers will be directed to cover.
