Records & Seasonal Best Times Update: Updated records and October seasonal best times have been posted to the website.

All-Star Team: The gifts for team members (towels) have arrived! Some will be distributed to teams this weekend and others will go out soon.

2027 Eastern Zone Meets: Virginia Swimming was awarded bids for the following meets:

- March 18-19: EZ Spring SC Sectional hosted by HOKI at Christiansburg Aquatic Center
- May 20-23: EZ LC Super Sectional hosted by SRVA at Collegiate School Aquatic Center
- August 4-7: LC EZ Age Group Champs hosted by NOVA at NOVA Aquatic Center – Regency

2026 Scholarship: The application and forms will be updated for 2026 and will be distributed to team leaders and posted on the website on December 1st.

SC Championship Meets: I am currently updating district championship meet announcements have will send them to the appropriate meet hosts this week. I will edit the Age Group and Senior Champs announcements this week to send to the respective committee chairs for their review this week. Medals for all the SC meets have been ordered.

Block Party Meets: I just learned that there have been changes from USA-S on this but I'm trying to get a few answers. I'll provide an update at the meeting if I have additional information at that point.

Website Update: Our transition to the Office Business account is almost complete! In recent weeks, we have been experiencing some issues with our website and emails using our current domain host. At the recommendation of our network services provider, we are in the process of migrating to GoDaddy as our domain host. The change will not impact our website or email availability and should be complete in the next few days. Please note that Emily and I have new email addresses so please update our contact info for VSI business to the following:

businessoffice@virginiaswimming.org, emilyfagan@virginiaswimming.org,
maryturner@virginiaswimming.org. I also suggest adding those addresses to your “safe senders” list
as we have had a few instances of emails going to spam.
