

For the second part of the Timing Equipment Operator Clinic, go to the link below:

<https://www.pvswim.org/official/officialsclinics.html>

We use Potomac Valley Swimming course which provides videos of the keystrokes and basics with setting up and working with the Colorado Timing System. Most pools use Colorado Timing System. Others may use DAKTRONICS or Omega and that training can be held on deck.

Scroll down the page until you see the below box. Click on Register for this clinic which will bring you to another screen asking for you name and email. With 10-15 minutes, you should receive an email with information about how to complete this clinic.

Click on the name of the clinic to see the prerequisites for attending that clinic.

Computer-Based Training Clinics - Available Any Time
