

Late Pickup Policy

In the interest of safety, 757swim will not leave a minor swimmer unattended while the swimmer waits to be picked up. Furthermore, USA Swimming's Minor Athlete Abuse Prevention Policy dictates that all interactions between a coach and swimmer must take place within observable and interruptible distance from another adult. Therefore, when a swimmer is late to be picked up after practice or other team events, two coaches must stay with the swimmer unless other adults are present in the immediate area.

Late pickup is a Code of Conduct violation. It is not only disrespectful and inconvenient for coaches, but also an expense to the team, as coaches are compensated for their time.

When late pickup occurs, a fee of \$25 will be assessed 15 minutes after the posted end of practice time. Every 5 minutes thereafter, the fee will increase by \$10. Fees will be applied to the swimmer's next invoice.
