

How to Add your Cell Phone to Receive ECAT Text Alerts & Verify your Email

We ask that you consider adding a text/SMS capable phone number so we can send urgent and/or time sensitive messaging to you and other family members.

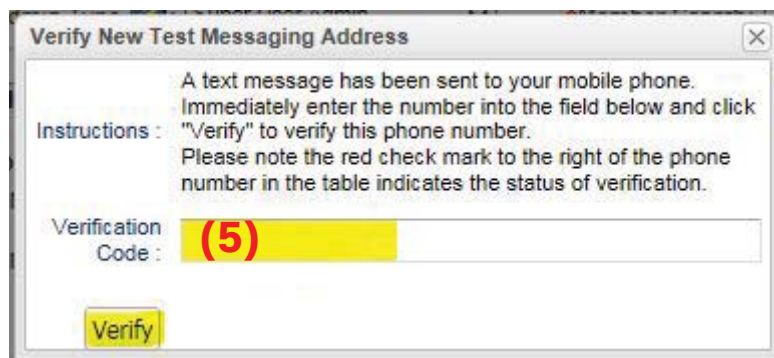

After signing in to your ECAT Account online, go to (1) "My Account" and (2) "My Account". Click on the (3) "Add SMS" button and you will get the (4) "New Text Messaging Device" window. Type in your Cell number and pick the Cell Carrier that provides your service (you can have a maximum of two Cell numbers in the list) and click the Send button.

Type	Value	Carrier	Verified
Login Email	sonny.grissom@cox.net		☒
SMS	757-633-7852	Verizon	☒

The system will send a text message with a verification code you type into the (5) Verification Code field and click Verify.

Repeat this for your second Cell number if you have one. Once the Cell numbers have been verified with checks in the boxes, you will be able to receive ECAT Text Alerts.

You can also do a simpler version of this step to verify your email addresses by selecting your email address and clicking on the (6) Verify button. The system will send you an email with a verification link. ~Coach Sonny
