

Employer Matching Donations & Volunteer Grants

Many employers offer matching gift programs or volunteer grant programs that provide financial contributions to nonprofits like Wave Aquatics when employees donate or volunteer their time.

How it works:

- Matching Gifts: If you make a personal donation to Wave Aquatics, your employer may match it—sometimes dollar for dollar (or more!).
- Volunteer Grants: Some companies donate to nonprofits based on the number of volunteer hours their employees serve. If you volunteer at swim meets or other Wave activities, your time may translate into a financial gift to the organization.

Wave Aquatics is a 501(c)3 nonprofit organization. Employer matching donations and volunteer grants support Wave's mission by funding a portion of our operating expenses, helping keep our programs accessible to Wave families.

What you can do:

1. Check with your employer's HR department or corporate giving portal to see if they offer matching gifts or volunteer grants.
2. Submit a request using your company's process.
3. If needed, Wave Aquatics is happy to provide verification or documentation.

Thank you for supporting Wave Aquatics—both in and out of the pool! Your time and generosity truly make a difference.
