

Meet Mobile app Overview

Live Meet and Swimmer Results on Your Mobile Device.

Meet Mobile is an app that provides live results of swim meets directly on your phone or tablet. It allows parents, swimmers, and fans to follow along with event schedules, heat and lane assignments, and results in real time.

Downloading and Access

- The app is free to download on both **iOS** and **Android** devices.
- To view full meet results, you need a **subscription** (monthly or yearly). Costs vary slightly by platform.
- Some meet hosts may also charge a fee through the app for access to **heat sheets** or **meet programs**.
- Meet Mobile supports Family Sharing on iOS devices.

Finding Your Meet

1. Download and open the app.
2. Tap the **Search icon**. 
3. Enter part of the meet name. You can also filter by **location** or **date** to narrow results.
4. Once you find your meet, tap on it to open the **Meet Program** screen.

Main Sections

The Meet Program has four categories:

1. Events

- Shows the meet schedule by session.
- Tapping a session displays the list of events.
- Heat sheets (if enabled by the host) will show each swimmer's **heat and lane assignment**.

2. Swimmers

- Displays all swimmers entered in the meet.
- Selecting a swimmer shows their personal event schedule and results.
- If heat sheets are enabled, you'll see heat and lane details.
- You can mark swimmers as **Favorites** (tap the gold star icon). This is helpful for quickly finding your child, siblings, or teammates.

3. Teams

- Lists all teams participating in the meet.
- Selecting a team shows all swimmers competing from that club.
- Teams can be marked as **Favorites** (tap the gold pennant icon) for easier access.

4. Team Scores

- Shows current team standings.
- Note: Not all meets use team scoring.

Important Tips for Parents

- **Psych Sheet vs. Heat Sheet:** Psych sheets list swimmers by entry time before heat/lane assignments. Heat sheets (if available) show exact heat and lane.
- **Live vs. Final Results:** Results posted in Meet Mobile are unofficial until confirmed by meet officials. Times may adjust slightly after reviews.
- **Refreshing:** The app does not always update instantly. Pull down on the screen to refresh for the latest results.
- **Availability:** Not all meets use Meet Mobile, and features may vary depending on what the meet host enables.
- **Searching Smart:** If you can't find your meet, try searching by **city and date**. Once found, you can bookmark it for quick access.
