Reminders from Convention 2015

2016 Marketing Kits will be available soon. There will be two kits available: a marketing kit and a retention kit. I highly recommend that all clubs check out www.usaswimming.org/swimtoday for more information on ordering kits. These are an essential tool and will help maximize the enthusiasm that the 2016 Rio Olympics will generate for swimming.

A reminder of the two potential rule changes that will be coming up:

1) Tech suit ban for 14 and under swimmers at all age group defined competition; 14 and under swimmers would be allowed to wear tech suits in open/senior competition. If the coaches in the room have their way, it will be a comprehensive ban that would essentially eliminate any suit other than your basic, vanilla racing suit. There was a lot of enthusiasm for this potential ban, but there are a lot of parties that need to come together to make this happen. Discussions will likely go on during the course of the year, with potential legislation being voted on at the 2016 USA Swimming HOD.

If you have strong opinions about this potential legislation (mainly, a reason to NOT support it), please let me know so that I can submit it on your behalf to USA Swimming.

2) A late rule change was submitted (and defeated because it was submitted late, and required 90% to pass) to change max races from 5 per day to 6 per day. This will likely be submitted again earlier in the calendar year (therefore not requiring a 90% vote but a simple majority). I think it would be in our best interest as an LSC to formulate an opinion on this matter. I tend to see more pros than cons, but there are some potential opportunities for abuse. At any rate, this is something I may be discussing with you during the course of the year, assuming that the legislation is proposed again.

This rule directly impacts Inland Empire. I am in favor of such a change in that it could have a positive impact on our meet structure and operations. Again, if you have a strong opinion on this potential legislation, please let me know.

Finally, please encourage all athletes and parents to participate in the short SafeSport Training webinar that is available at USA Swimming website. It is free for athletes and parents. Here are the web addresses:

Coaches Representative Report Spring 2016 Bob Wood

Only few items have been brought to my attention this time around:

1. Poor Air Quality has had less of an impact than previous years due to not hosting meets at EWU and improvement of air quality at Central, and the improvement of air quality at Federal Way due to the retro-fit of the HVAC system there.
2. At the National Level of USAS there is still discussion about how to better serve the LSCs with under 2500 swimming members. Part of the discussion includes clumping smaller LSC's like ours into larger LSCs, as I have been warning for the last several years. Due to the Olympic Cycle nothing will be done in this calendar year but we must be aware that this subject will come up the following year.
3. A relaxation of restrictions at the Kroc Center may allow CAST to host up to two meets a year at the facility, which is good news from a facilities standpoint and may slightly offset the loss of EWU as a meet hosting site on the East side of the LSC.
4. I would like to solicit for some ideas on how the coach's representative can better serve the smaller teams in the LSC. If anyone has any ideas please let me know. I frankly feel as if I am doing next to nothing serving the coaches in the LSC so I would be grateful for any ideas any of you may have to better serve you all.

I look forward to seeing you all this weekend!

2016 HOD Safety Chair Report

The short course season is almost over. Overall the past year has been very good for Inland Empire Swimming. We did have some injuries that are listed in this report. Not all were under the supervision of the coaching team, although a couple could have been avoided that occurred in the water or on the deck.

In 2015 there was a lot of concern regarding air and water issues at the short course championships at Ellensburg. I was at the TCCC meet in January of 2016 and there were no complaints. I didn't get notified of any air or water issues that needed attention during the short course season.

The long course season will be starting soon, here are some early reminders:

- Make sure your swimmer hydrate properly, that means they need to start drinking water the night before, drink on a regular basis not only when thirsty
- Swimmers need to be well rested
- Eat a balance diet
- Avoid diuretics: soft drinks, teas, coffee and energy drinks
- No running on deck
- No standing on chairs/tables
- No horse play on deck
- Feet first entry into the water during practice and at meets during warm-ups

Safety Committee is in need of more members

Let's have a safe and fun long course season.

Jack Griffith

Safe Sport Chair Report
April, 2016
Corrine Dutto

No Safe Sport Incidents have been reported to me in IES since the last report October, 2015.

SWIM STAFF SELECT is now up and running. SWIM STAFF SELECT (www.swimstaffselect.org) is a Web-based cloud application (app) that helps you screen applicants for staff and volunteer positions at your swim club. Using Swim Staff Select, you can create position descriptions, job postings, job applications, reference checking scripts, and interview scripts. You can also communicate with applicants and review applications.

Teams, Coaches, Officials and Parents can go to “fill my club’s tool kit” for LOTS of information, including:

- Model Policies and Guidelines
- Tips for Parents
- Safe Sport Introduction for Parents-Power Point presentation USAS teams may use to introduce new families to Safe Sport. This would be great for new family orientation. It shows how your team and USAS is committed to keeping all of our swimmers safe.
- Pre-season parent orientation handout
- Safe sport overview for coaches
- For Meet Directors, Admin Officials, Referees and other officials: Safe Sport Guide for Meet Administration, Pre-Meet Safe Sport Risk Assessment and Safe Sport Scenarios at Meets. This will help to plan for a safe meet, identify problems, and address those problems at swim meets.
- Heat sheet ads
- No cameras sign
- No deck changing poster
- Resource guide for peer-on –peer incidents
- Pre-season parent orientation handout

Coaches: Please remind your swimmers to change in designated areas (locker rooms). No deck changing at meets or at practices.

Liz Law has graciously accepted the nomination to become our next Safe Sport Chair for IES.

I have stepped down due to other commitments in my community. I am honored to have served as the IES Safe Sport Chair for three years. I hope that all members of IES continue their commitments to keep our athletes safe whenever they are participating in swimming activities. Thanks for your support in my efforts to help all of your teams. -Corrine Dutto
