

Currently, the waters are way to cold to swim open water but will be heating up quickly in the LSC. A small group of individuals met with Mike Murphy via Zoom mid-April to discuss all activities that need to be completed before the Western Zone Open Water Championship meet. We have the permit from the city of Coeur d'Alene for the event. Now, it's putting all the other activities together to ensure we have all things covered. We are planning on another meeting in May, then will be conducting officials meetings in July and August. Anyone interested in attending is welcome.
