

My name is Christopher Hager, and I've been competitively swimming in Wyoming since the age of nine. I currently swim for CCA. I want to bring more interest and participation to Wyoming swimming. I want to create more opportunities for athletes to voice their concerns and opinions for improving meets inside Wyoming. I also want to improve my leadership skills and social skills so I can achieve my goals as athlete representative. Something my coach always tells us is "leave the program better than you found it." I should be elected as an athlete representative because I am confident of these goals and my ability to improve our community.
