### **Admin Review Board**

### **Qualifying Period**

- We would like to include districts/conference meets which are held two weeks prior to winter state
- By including conference athletes have an opportunity to swim more than nine individual events they can swim at state and those times would count
- Also by including conference it will take pressure off at the championship meet
- It will also include high school boys state times
- There are not a lot of summer meets that are held so any last chance summer meets would count
- Therefore: Qualifying times for both championship meets must have been swum during the period two weeks prior to the first day of the championship meet one year earlier

**Meeting was adjourned at 4:35 PM**
